BC Parks Statistics Report 2012/13
Executive Summary

Attendance:
Overall park attendance increased by 7.6% in 2012/13. This increase can be attributed to a general improvement in weather after an exceptionally cold and rainy summer last year throughout many areas of the province. An improvement in data reporting practices, a result of the implementation of a new attendance reporting system, also contributed to the increase.

Day use attendance increased by 8.3% overall, with increases showing in the Northern, South Coast, Thompson Cariboo and West Coast Regions. Parking machines were removed in May 2011, and after a rainy 2011 summer, day use attendance rose to its highest level in years.

Camping attendance also increased by 5.2% overall. Every region showed an increase in camping attendance with the exception of Thompson Cariboo, which showed a slight decline (1%). The Northern region saw the largest climb, as attendance levels returned to normal levels after flooding caused the closure of many of the region's highways in 2011.

BC Parks tracks attendance through campground registrations, trail and traffic counters and visual counts. In order to have standard, comparable information, all "visits" are stated in person days (so one person staying for two days counts as two "visits"). Average party sizes are applied to daily counts of cars, boats, camping parties, etc. to obtain the number of actual visits. Occasionally, automatic traffic counters may malfunction or data may otherwise be impossible to obtain. In these cases, where appropriate, BC Parks may provide estimates of attendance based on historical averages.

The new attendance reporting system implemented different counting procedures for marine visits, which caused boating attendance to appear to drop from 2011 levels. There were also some shifts in relative attendance levels between regions compared to last year, as some parks were moved on the online attendance system into new regions. Parks that demonstrated a significant change to visitation compared to 2011/12 are noted on pages 6 to 8 of this report.

Revenues:
Recreation User Fee revenues increased by 5.4% overall, a difference of $829,000 compared to 2011. Much of this increase can be attributed to the increase in camping attendance due to much better weather across the province. The Kootenay Okanagan, Northern and South Coast regions all posted substantial increases in revenue (5.8% 14.6%, and 10.8% respectively).

Park Use Permit fee revenues fell by 7.2%, returning to normal levels. An extended ski season in western BC caused an increase in ski hill revenue in 2011.

Recoveries:
Recoveries to BC Parks dropped by 26.6% to $239,192 in 2012/13. National Park Establishment funding is no longer available, and the Stein Valley Emergency Program recovery also ended.

BC Parks Budget Expenditures:
BC Parks Budget expenditures decreased from $53.0 million to $46.8 million. The decrease is largely explained by a $6.9 million decrease in compensation required to buy out timber and mineral rights in new parks and conservancies. This compensation was down in 2012/13 as the land acquired did not require extensive buyouts. This amount tends to vary widely from year to year. Amortization expenditures also decreased after a one-time decommissioning of parking machines within day use areas took place in 2011.

Operating Expenditures:
Overall, BC Parks operating expenditures dropped slightly, with decreases in amortization costs and spending on goods and services contributing the most to the reduction. Recreation service delivery contract costs increased overall due to increases in the prices of key inputs into park operations, such as labour and fuel.

Capital Expenditures:
Overall capital expenditures fell 19.1% as a result of the reduced compensation paid for timber and mineral rights. 2011 was the final year for much of the compensation that was required to be paid for new land added to the provincial system in recent years. Capital investments in park facilities increased by 28% due to an increase in the capital budget.

Satisfaction:
The overall visitor satisfaction rating in 2012/13 was 79%, a slight drop from 82% in 2011 and just under the management target of 80%. The satisfaction rating is based on five key performance indicators (cleanliness of washrooms, cleanliness of grounds, sense of security, control of noise, and condition of facilities) as measured by the annual Visitor Satisfaction Survey. Campground visitors remained highly satisfied with the cleanliness of the grounds (90% excellent or above average) and sense of security (84%). The rating given to condition of facilities (77% excellent or above average) remained unchanged from 2011, while control of noise (75%) and cleanliness of washrooms (68%) experienced slight declines. BC Parks will continue to work with park facility operators to ensure visitors are highly satisfied with their stays in provincial campgrounds.

[1]The BC Parks Parking Program was discontinued in May, 2011.

[2]Silver Star Park also generated $285,867 in revenue for Nordic skiing trail fees. However, this revenue is retained by the non-profit operator, and any money that exceeds the operating costs to run the Nordic facilities is re-invested into the park's infrastructure. As such, park use permit fees for this particular operation are waived.

Source: Financial Data Warehouse.
An additional $10,000 from Empire Valley Ranch was held in a deferred revenue account and used to complete projects in 2011/12.

[1]Tatshenshini River Rafting - deferred revenue error in 11/12 caused that year's revenue to be understated and 12/13 to be overstated. Revenue in 11/12 was deferred and brought forward in 12/13.

[2]Empire Valley Ranch - 11/12 saw deferred revenue brought forward from previous year, causing revenue to appear to be higher than usual.

[3]National Park Establishment funding no longer available

[1]VANOC - Cypress and Hollyburn - one-time donations

[2]Parks 100 and Strathcona Expedition - end of that project

[3]Other donations included a one-time bequest of $100,000 and several other large one-time donations for use in specific parks for specific projects.

[4]Tree removal (stumpage) - Major project in Strathcona Park

[5]Other operating expenditures included extensive Community Engagement projects in regions.

[6]There are many commitments against this unspent balance - both stumpage revenue and most donations are tied to specific park projects. Reservation service revenues are also required for system improvements and to enhance services to the public.

BC Parks Statistics Report 2012/13

Significant Variances in Camping and Day Use Attendance

Parks with the greatest changes in attendance

This section highlights those parks which show the greatest increases and decreases in attendance. For day use, thresholds of plus or minus 30% and plus or minus 5,000 total attendance variance are used to highlight critical changes. For camping, thresholds of plus or minus 10% and plus or minus 1,000 in total attendance are used. The appendices provide individual variances in attendance and revenue for all parks.

Parks with INCREASED day use:

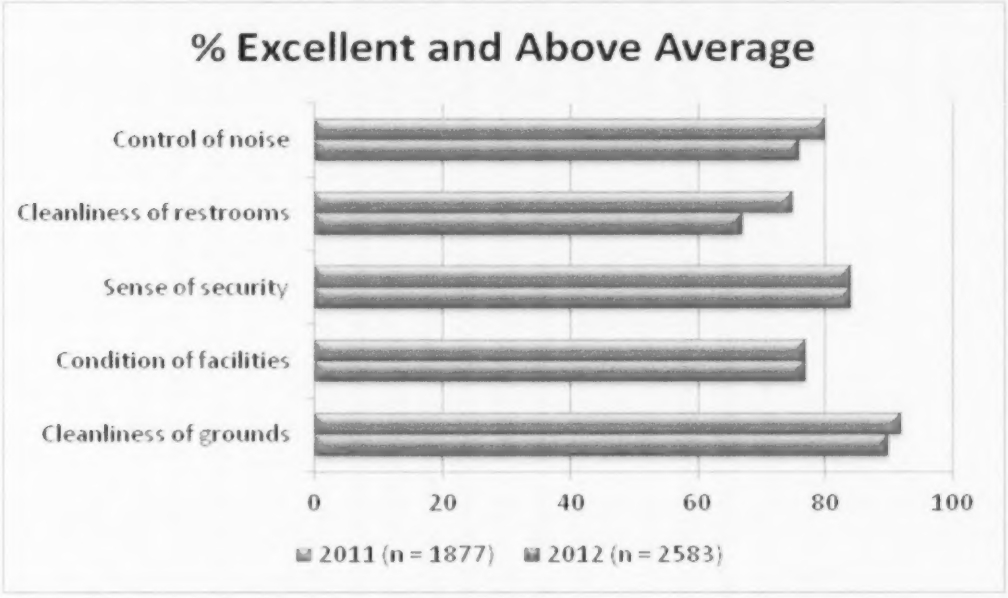
BC Parks Statistics Report 2012/13
2012 BC Parks Visitor Satisfaction Survey

The Visitor Satisfaction Survey assesses the ministry's effectiveness in achieving client satisfaction with campground facilities and services. Key parks are surveyed on a rotational basis, every 4 years. The survey is based on sound statistical principles, design and methodology. All ratings are based on responses of "excellent" and "above average" to the survey questions. Surveys are usually undertaken yearly from mid-May to the first week of September. BC Parks' overall visitor satisfaction rating is based on an index of visitor responses to questions about five key services: cleanliness of restrooms; cleanliness of grounds; sense of security; control of noise; and condition of facilities. The survey results also include demographic data.



Overall visitor satisfaction was 79% in 2012. Campground visitors are highly satisfied with the cleanliness of the grounds (90 per cent of visitors rated this as excellent or above average in 2012) and sense of security (84 per cent excellent or above average). The lowest rating was given to the cleanliness of restrooms (about 67 per cent excellent or above average in 2012).
